14/11/2017

## Ding Li joins Cundall as Corporate Sustainability Consultant

Ding Li has joined international multi-disciplinary engineer Cundall as Corporate Sustainability Consultant, based in the Hong Kong office. Ding specialises in the field of environmental management consulting, as well as corporate social responsibility (CSR) rating and advisory services. She is a Certified Associate in Project Management through the Project Management Institute.

Ding will be leading the development of Cundall's Corporate Sustainability offering in Asia and assisting clients to embed sustainability principles into their business operations and organisational culture.

"I am thrilled to join Cundall at this exciting time. The company is renowned globally as an industry expert with a strong understanding of the built environment and for practicing what they preach on sustainability. The combination of corporate sustainability consultancy and first-class infrastructure expertise gives Cundall a unique offering which differentiates it from other conventional management consultancies." **Ding Li, Corporate Sustainability Consultant, Cundall**

"Ding has extensive experience working closely with clients on developing sustainability strategies for large multi-national companies. I am delighted that she will be bring her experience to Cundall, enabling us to strengthen our offering in this space." **Amie Shuttleworth, Global Head of Sustainability, Cundall**

Ding joins Cundall from a leading environmental management consultancy and a global CSR rating agency where she worked with multi-national corporations to create value through sustainability in areas such as environmental goals setting, stakeholder engagement, responsible procurement, and sustainable supply chain management.

Outside work, Ding actively engages in climate change issues and science communication. She speaks regularly at events for universities and corporations on climate and conservation-related subjects. She is an owner of three dogs and in her free time enjoys snorkelling and cycling.

### **Cundall: 40 years of clever, friendly engineering**

**Cundall** is an international multi-disciplinary engineering consultancy with over 750 staff and offices in 11 countries across the globe.

2016 saw Cundall (Cundall Johnston and Partners LLP) celebrate its 40<sup>th</sup> anniversary. Established in 1976, Cundall's founding partners shared a common vision that the practice would become a leading multi-disciplinary engineering consultancy built on sound ethical principles. For 41 years, Cundall's engineering expertise, coupled with creativity, innovation and a deep-rooted understanding of people and communities, has allowed the business to develop the best possible solutions for clients' projects. We are Clever, Friendly Engineers.

Harkening back to the founders' roots, sustainability is integral to our approach. We provide our clients with practical advice and solutions, which reduce the environmental impact of developments, and provide better spaces for building users and occupiers, as well as for the wider community.

Cundall is the world's first consultancy to be endorsed as a One Planet Company. As a business, Cundall has implemented several sustainable initiatives on projects around the world, as well as in our offices and homes. For example, Cundall's new London office at One Carter Lane is the first building in the UK and Europe to achieve WELL Certification through the WELL Building Standard™ (WELL), a goal intended to put the health and wellbeing of the occupants at the heart of building design.

For more information about Cundall, please go to [www.cundall.com](http://www.cundall.com). Alternatively, you can find us on Twitter at [www.twitter.com/Cundall\\_Global](https://www.twitter.com/Cundall_Global)
